I. Call to Order (5:30pm)
   A. Approve Minutes (5:30pm)
      1. Minutes approved

II. Guest Speakers (5:30 - 6:00pm)
   A. Mary Jo Gonzales, Vice President of Student Affairs
      1. Mary Jo communicates with students (undergrad and grad) about their needs and issues, and elevates them to the people concerned.
      2. Becoming more receptive to the needs of first generation students.
      3. Past 9 months:
         a) Attending meetings with student organizations, getting a sense of what student needs are and how they can engage in the community.
         b) Even if advocacy is not made public, a lot of issues are discussed “at the table” (including the latest tax reform bill issue)
         c) Division of student affairs: have not had a permanent Vice President of Student Affairs in the past couple of years before Mary Jo’s arrival, which caused many bureaucratic issues and a loss of 1.2 million dollars.
         d) Making sure there are enough advocates for social issues
         e) Thorough budget analysis, especially after the deficit issue, and doing what is required to fix the issue (including fundraisers, raising fees - which is usually the last resort)
      4. Question and Answer Session with Mary Jo Gonzales
         a) Budget reconciliation: athletics are given a longer period to reconcile their budget
            (1) They are taking as much as everyone else is in terms of time (started about a year and a half ago) – they have more debt especially related to buildings were built without Maintenance and Operation fees – 8 positions were reduced over the summer
         b) Fees schedule that would potentially add fees to schedule
            (1) there will be increase in fees in the near future and clarification on the yearly 2.5% budget reduction (it’s a 2.5% cut every year for the next 3 years)
         c) Comment: definition of first generation student is ambiguous; is there a way to spread the “correct” definition university wide
(1) One of the most used definitions is a first generation student is a person pursuing a college degree and neither parent has completed a bachelors degree

d) Budget reconciliation: admitting more freshmen and increasing class sizes. Comment on how that will affect the quality of education?

   (1) WSU is currently trying to increase the number of students in the incoming first year freshmen class. This may increase class sizes but the decision is that of the deans from each of the colleges. Talk to your dean if you are concerned about this issue as a graduate or professional student

e) Will the Standards of our university suffer by accepting more students to the university?

   (1) The standards will not suffer and academic readiness will not decrease but if you have questions you can contact Eric Godfrey, the Executive Director of Enrollment Management Programs.

f) In the past, more than $30 million that we did not account for. What has been implemented to avoid this happening future?

   (1) President has it outlined in his memo, and will hold the people in charge accountable via expenditure reviews, making sure hiring processes are slow, or effective and efficient (quality of people who are hired)

g) Salary cuts: a student proposes that graduate housing rents are reduced to help students out

   (1) Students self-select where they live, but the idea will be brought up.

h) Graduate housing rates have been increasing every year

   (1) Housing offices have to cover all issues related to the rentals, not the state. Office has been making sure that all increases are justified and well explained

i) Finance proposals: making some cuts to higher paid administrators

   (1) No comment

j) Improving transparency for sudden cut in performing arts.

   (1) Fiscal analysis: if irrational spending were to continue, the university would have $0 reserve in 3 years. Performing arts position were all on temporary funding (not permanent). President Schulz has information regarding his plans for our budget reconciliation

Your Voice, Our Actions
k) Regarding the 1% increase on faculty and staff salaries: cut the salaries now, and then increase it when required
   (1) No comment
l) Significant budget cut and Drive to 25: conflict?
   (1) Mary Jo does not see it as a conflict: making sure that all of the programs are contributing to the retention and graduation of students on campus
   (2) Budget issues give a clarity on what needs to be done by the Student Affairs office better for that Drive to 25.
m) Budget cuts: once balance books what happens? How does this affect future issues like this?
   (1) President made it clear that he would not have went with the budget cuts solution
   (2) Using bodies like GPSA to make sure that this does not happen in the future.
n) Efforts for first generation students are appreciated. What are some measures made to support undocumented student?
   (1) Hard to predict political landscape.
   (2) No specific pathway with the actions of the federal government
   (3) Multiple conversations were made with undocumented students to support them.
o) Metrics for Drive to 25: 11 metrics
   (1) Seven of them relate directly to Student Affairs. Trying to increase money from federal government and external resources to fund research. This is what is meant by expenditures. Contact Dr. Christopher Keane, the Vice President of Research, if you have questions.
