    - Question: How are parking fees determined? A: Set by the Parking Services taskforce, determined through a 10-yr financial forecast for maintenance costs for facilities
    - Question: Football related parking is occupying disability parking spaces (mentioned in [DailyEvergreen article](http://dailyevergreen.com)), how can Transportation assist with this? A: Daily Evergreen article caught them by surprise, the area mentioned is taken by ESPN for video production, disability spaces available in the parking garages, but there’s a need to publicize that these spaces exist
  - **Dr. Jill McCluskey** – Director of the School of Economic Sciences as well as a Regents Professor. She is the founder of Lauren McClusky Foundation and will speak about campus safety at WSU.
    - “Lauren's Promise” is a voluntary syllabus addition aimed at supporting students that feel threatened by domestic violence or anything else on campus
    - Provides resources for those who may feel they are in danger
    - Professors at WSU have used this statement, and students have already come forward with requests for help
- The Lauren McClusky Foundation has the goal of promoting campus safety
- Question: Where can we download this to add to the syllabus? A: It has been posted online, and could be posted for GPSA
- Comment: School of Economic Sciences has adopted this statement
- Questions: There is a working group trying to get a University-wide statement to be added to all syllabuses. A: Will connect about this.
- Questions: With the recent “mistrial” on a case involving a WSU police officer, is there anything to suggest to remedy students’ feelings? A: Working with WSU police, particularly across departments to remedy this. Women are more likely to report when women are on the force, which is something to be worked on.
- Question:/comment: many of us are in department based student organizations, senator recommends this being brought up with any Faculty Liaisons to make sure this is added to all syllabi

  - **WSA Updates**
    - Quick recap of meetings, including student groups from across the state
    - Graduate and Professional student common issues:
      - Visibility
      - Communication
○ Childcare
○ Student fees and tuition waivers not covering them
○ Lack of oversight from state legislature for grad tuition
○ Subsidized loans not available
○ Non-regulated tuition
○ Mental health resources
○ Isolation
○ Misinformation about the “average” grad students, who are grad students
○ Power dynamics with mentors and fear of retribution
○ Mentorship vs. advising
○ Jurisdiction of grad student reps vs. responsibility of the university
○ Satellite campus challenges and restrictions
○ Little focus on non-traditional students and students of color

● Moving forward
○ Monthly call for WSA to plan Grad Day on the Hill
   ■ February 11th (tentatively)
      ● Financed through UW and GPSA, WSA financing available
      ● Modeled after SAGE
      ● Phone calls for Presidents and then non student-government representatives
      ● NAGPS vs. SAGE
      ● Online workshop for undergraduate student leaders to differentiate from graduate needs

● WSA fees: separating from ASWSU Budget reallocation proposal
○ New income: $8,500 bookie dividend
○ Unused funds (0.5 Student Involvement + Benefits)
○ Hiring will not be final until the end of November, if successful
○ This means a minimum of 5 months from those budget lines (in 0101) will not be used
   ■ Program Coordinator (0.5 Student Involvement)
      $18,630
   ■ Employee Benefits $8,943
● Unused amount of $27,573 (5/12th, about 42%) is about $11,500
● Total amount to be reallocated: $20,000
   ○ Question: Is there a possibility S&A gets cut and this continued funding becomes a headache? A: Not expected to suffer cuts bad enough to make it an issue ($3000 is only a small portion of the operating budget)

● Proposal
○ $3000 to pay for WSA
○ $4000 to travel grants committee (working on a new research grant program)
○ $3000 to budget committee (sponsorships)
○ $10,000 for project with the Graduate Writing Center
○ $4000 for graduate consultant (10 hrs/week, $20 per hour)
○ $6000 for new graduate writing center (equipment + furniture)

● Question: What are the direct benefits to graduate students from having this additional representation in WSA? A: Ability to promote graduate student specific issues outside of the range of ASWSU

● Question: Will there be a capacity for the new writing center to provide electronic access for students who cannot attend in person? A: Certain services will be available such as printing

● Question: Sounds great, but where will all this money be coming from? A: Additional unexpected funding from the Bookie will be used

● Question: What exactly is the increased sponsorships for RSOs going towards? A: Those RSO’s unfunded from last years funding process

● Motion to vote, Discussion:
  ○ Some discomfort with hiring a new person prior to budget approval
  ○ Q: What is currently funding the graduate writing center? A: A portion of the undergraduate writing center funding goes towards existing grad center, there will be no funding for new graduate center if this does not pass
  ○ Vote: Majority Aye’s, the Motion Passes

● RSO Funding updates
